DETAILED ACTION

Claims 72-98 are pending.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 72-98 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 72-77, the term “terpene trilactones” or the term “each terpi(e)ne trilactones” is vague since it is not clear that the term represents a single component or the combination of various components, and it can not represent both in the claim. In particular, the term is in plural form, thus, it would be a mixture of components. In claims 78-98, it is not clear how a single process can produce three different mixtures having different compositions as claimed in claim 78 wherein the process is the same, i.e., containing the same steps and without any modification. In claims 79-98, it is not clear what composition is being claimed, and how to obtain a single composition as represented by claim 72; by claim 74 or by claim 76 by using the process as disclosed in claim 78.

No claim is allowed.
